Subject: FW: Friday's meeting with the City of East Chicago. WD thought IDEM should participate in the drinking water discussion. Is there a call-in #?

Rita – can you let the IDEM drinking water folks know that this meeting has been postponed? They said they would call in tomorrow.

Jaime -- Miguel DelToral is attending Friday's meeting with the city to talk about the drinking

water pilot study. He thinks IDEM should participate to talk about the water system and what they are doing with the city to add orthophosphate. I mentioned it to IDEM on a check in call yesterday afternoon. Their drinking water staff could participate if they can call-in. Can you find out whether they can do so? Thanks.
